

Helping people support individuals with SEN

ENRICHMENT PROGRAMME – STATEMENT OF PRINCIPLES

1. The primary purpose of Enrichment is to provide enjoyment and to provide experiences and develop skills which can help inform adult life.
2. The purpose of all activities within the Enrichment programme atSchool is to extend the curriculum beyond its specific academic and vocational objectives to wider personal, social, emotional/ spiritual and moral dimensions of experience.
3. The activities are intended to add value to each individual's overall learning experience either through individual, group or community activities.
4. It is, therefore, a deliberate policy of this area of provision not to set specific individual learning outcomes, objectives or targets or to attempt to measure their outcomes quantitatively.
5. Each activity should be planned with a clearly stated purpose and documentary evidence, resulting from the activity, recorded in the form of photographs, video clips and learner feedback which might be uploaded to the school website or displayed in classrooms and other locations around the school site.
6. The value of all activities within the Enrichment programme shall be placed on their experiential value as 'measured' by the qualitative responses and feedback by the learners themselves through feedback surveys and other forms of evidence referred to in Section 5.

ENRICHMENT ACTIVITIES
